

Kaizen has created a customized solution for maintaining your Yahoo Store Customer Management system. With our solution, you can keep track of how many times your customer returns to your store and exactly what they are interested in purchasing. Our innovative Login System reduces processing times, gives the customer more control over their orders, and makes the shopping experience more personal. Every savvy e-Commerce owner knows that the best customers are the returning customers.

***Our secure login system will help provide a better shopping experience for your Yahoo Store.***

## Our Login System Provides:

- User registration.
- Keeps track of past orders and reorders.
- Manages a wish list.
- Manages the loyalty reward points feature.
- Helps the Store Administrator provide promotional offers.
- Tracks customer's order histories.

## Scope of System and Perks:

- Quickly configurable with Yahoo Store.
- Easy to implement in your existing yahoo store hosting environment.
- Automatically updates the login System layout when necessary.
- Helps the administrator keep track of registered customers.
- Improves the checkout process and makes it more customer-friendly.  
(Automatically fills in all customer details in checkout page, if a user is Logged-in to the Login System).

## Key Features of Login System:

- Shows login status with a customized message on all pages of site, including the shopping Cart.

- Login System page also has the same layout as your site & it is dynamically updated when you update your site.

- When the customer moves on to the shopping cart page, assuming the customer is logged into the vLogin System, shipping and billing information will be fetched from the profile automatically. This feature drastically reduces time spent on order processing.
- Login System works from sub domain of the store (eg. http://login.YOURSTORENAME.com) (Note: We need admin access of your store for this feature.)
- Customized login page means you can put up a special banner or special text on all login pages along with your terms and condition (if any may apply).\*

**If you'd like to discuss more about our Custom Login System, please call us at +1-929-525-5272 for a free Consultation**
